DETAILED ACTION

Response to Amendment

1. The finality of the previous rejection is withdrawn. The amendments filed on 4/06/06 and 5/03/06 have been considered and entered.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance: The prior art fails to disclose or render obvious a method of switching between inputs on a radio frequency landing system of an aircraft wherein after an initialization, a first value of a parameter in relation to the aircraft and a second value of the same parameter in relation to the runway is determined, the difference between the first and second values is computed, and switchover occurs to one of said first or second inputs as a function of the difference.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. This application is in condition for allowance except for the following formal matters:

The title, abstract, specification, and claims are objected to for containing the word "radiofrequency", which is inconsistent with the proper wording,--radio frequency--.

Art Unit: 3662

All instances of "radiofrequency" in the application must be changed to --radio frequency--.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
